CAREER OBJECTIVE

Motivated B.Tech Computer Science & Engineering student with hands-on experience in web development, AI-powered applications, and computer vision. Seeking an entry-level opportunity to apply technical and problem-solving skills while continuing to build practical industry experience.

EDUCATION

B.Tech – Computer Science & Engineering

Techno Institute of Engineering and Management (Formerly known as Techno Engineering College Banipur)
MAKAUT | CGPA: 8.09/10 | Expected Graduation: 2027

Class XII (CBSE)

Sudhir Memorial Institute
Percentage: 66.6% | Year of Passing: 2023

Class X (ICSE)

St. Jude's High School
Percentage: 92% | Year of Passing: 2021

TECHNICAL SKILLS

Programming	C, JavaScript, TypeScript, Python, SQL
Web Technologies	HTML, CSS, React.js, Flask
AI / Computer Vision	Claude API, YOLOv8, Computer Vision
Database	MySQL
Core Subjects	Object-Oriented Programming, Database Management System, Operating Systems, Computer Networks
Tools	Git, GitHub, VS Code

PROJECTS

Recipe Remix | React.js, TypeScript, Claude API

- Developing an AI-powered recipe generator that creates personalized recipes from available ingredients, preferences, and leftovers.
- Implemented recipe history, ingredient substitution, portion scaling, cooking timer, and Hindi/Bengali translation support.
- Currently developing pantry-aware recommendations, nutrition tracking, weekly planning, voice input, and advanced AI cooking features.

RoadGuard – AI-Based Road Damage Detection | Python, YOLOv8, Flask, Computer Vision

- Developed an AI-based road damage detection system for identifying potholes, cracks, and manhole-related road damage from uploaded images.
- Uses YOLOv8-based computer vision to detect damage and provide severity and repair-priority scoring.
- Built a Flask interface for image upload, detection results, and visualisation of identified road damage.

ERP Management System | React.js, JavaScript

- Developed a frontend ERP system mock-up with authentication, dashboard, and product-management modules.
- Implemented reusable React components and application state management for a structured enterprise dashboard experience.

STRENGTHS

Problem Solving	Adaptability	Quick Learner
Communication Skills	Team Player	Time Management
